SITUATION SUMMARY

Southern California Excessive Heat Event, Multiple Counties

SITUATION OVERVIEW:

Phase II Criteria of the Heat Plan has been met. The National Weather Service has issued Excessive Heat Watches and Warnings for portions of Southern California through early next week.

- Widespread temperatures in the upper 90s to lower 100s affecting valleys and lower mountain elevations will continue through at least Tuesday over southern CA.
- Overnight temperatures will remain quite warm during this period in the foothills and lower mountain elevations, with lows generally in the 70s.
- Weak offshore flow will result in humidities lowering to near-critical levels over inland areas especially the mountains of Ventura and Los Angeles Counties. The low humidities combined with hot temperatures will bring the potential for dangerous fire weather conditions at times through Tuesday.
- There is a potential for strong rip currents on Monday and Tuesday as the long-period swell arrives. With the hot weather pattern in place, lifeguard rescues could be elevated due to people traveling to the beaches to cool off.
- Remnants from Hurricane Odile might move across Southern California by Wednesday and Thursday. There is the potential of 1-2 inches of precipitation over the deserts and coastal mountains of southern California with slightly less amounts over the lower elevation. There is a lot of uncertainty with the precipitation at this time however.

Actions

- Cal OES is disseminating excessive heat information through:
 - Daily Weather Outlook
 - Cal OES Daily Situation Report
 - State Weather Situational Awareness Briefing to stakeholders

A conference call is scheduled for Sunday, September, 14, 2014; 1300 hours

Resources

- Heath Contingency Plan for Excessive Heat Emergencies (June 2014):
<http://www.calema.ca.gov/PlanningandPreparedness/Pages/Heat.aspx>
- NWS Heat Impact Levels HIL (Experimental product created by NWS). The goal is to provide advanced localized information about excessive heat events. The Heat Impact Level graphics provide a concise way to view where and when heat might have the greatest potential impacts. The graphic is the result of combining local climate information with the 7-day forecast:
<http://www.wrh.noaa.gov/sto/heat/?page=gmap&day=4>

OF EMERGENCY SERVICES

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County

SITUATION:

On Sunday, August 24, 2014, at 0320 Hours PST, a magnitude 6.0 earthquake struck five miles northwest of American Canyon, CA.

Health and Medical

- California Public Health reported that five (5) Women, Infant and Children Centers (On in Solano County; Four in Napa County) are opened and fully operational.

Utilities

- Stabilization and repair of the distribution leaks caused by the August 24th Napa Earthquake is functionally complete for the City of Napa. The status of local sewer main repair and bacteriological history since the earthquake has been reviewed by the SWRCB'S Division of Drinking Water. Based on these factors, the Division of Drinking Water is lifting the blanket precautionary BWN issued for the City of Napa on 8/24/14.
- The Browns Valley area remains vulnerable due to the damage to the roof of the million gallon storage tank (Reservoir B tank) in that area. This area potentially could be subject to localized BWNs in the next few weeks if pumps from other pressure zones are unable to meet demand; however, at present there are no immediate risks.

Mission Tasking

2014-CREOC-5600: 10 Structural Engineers for City of Vallejo – On Scene.

2014-SOC-5712: 6 Caltrans inspectors to inspect over bridges in Napa – Coordinated.

2014-SOC-5520: 25 CALBO Inspectors – Closed.

2014-SOC-5630: 20 SAP inspectors for Napa - On Scene.

2014-CREOC-5753: 1 Building inspector/engineer for City of American Canyon - On Scene

2014-CREOC-5758: 20 SAP inspectors to assist the City of Napa - Coordinated

2014-CREOC-5772: 8 Building inspectors for the City of Vallejo - On Scene

Activations

The Coastal Region Duty Officer and assigned field staff, in coordination with Cal OES' Recovery Division and interested stakeholders, will continue to monitor activity, conduct follow-up on related impacts and associated costs, actions taken, and facilitate additional state assistance as needed.

- Napa County EOC - Napa Recovery Operations Center (ROC) – Activated Mon thru Fri from 0800-1700 hours until further notice.
- In support of the Bridge Inspection Mission request from the County of Napa, Caltrans Structure Maintenance & Investigation's Incident Command Center is currently activated. The center will be on Duty Officer Status throughout the weekend and stood up again on Monday.

Deployments

Cal OES staff are deployed to Napa for IA PDA.

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County (Continued)

Recovery

- On September 11, 2014, the President declared a major disaster declaration in Napa and Solano Counties for the Napa Earthquake. The declaration provides Public Assistance (PA) funding for emergency work and the repair or replacement of disaster-damaged facilities within the two counties. The Individual Assistance (IA) portion of the request remains under review pending the outcome of the additional IA PDAs taking place at this time.
- Based on a request for additional IA information for the major disaster declaration request, IA teams conducted PDAs 09/8/14 through 09/12/14 in Napa County, the City of Vallejo, and Solano County. Additional IA PDAs are being scheduled for the week of 09/15/14 in Napa County.
- The City of Napa website has information regarding earthquake recovery resources.
- Cal OES Recovery PA is working closely with the Operational Areas to schedule the PA Applicants Briefing to advise state agencies, local governments, and private non-profit organizations impacted by the earthquake the types of assistance available and the programmatic guidelines. Tentative time and location: 09/23/14 at 1000 hours in the Chardonnay Hall, 575 3rd Street, Napa, CA.
- On 09/04/14, IA participated in a Long Term Recovery Committee (LTRC) meeting with key organizations interested in recovery efforts. A follow-up meeting was held 09/05/14, the Napa LTRC is in the process of forming its leadership, establishing policies and procedures, and identifying a Mission statement.
- State Voluntary Agency Liaison (VAL) is working with Solano VOAD to coordinating a Long Term Recovery discussion meeting for Monday, 09/15/14. Participants will include voluntary organizations, state and federal VAL, and leadership from Northern CA and Solano VOAD.
- American Red Cross Assistance Center: Napa Marriott Hotel opened on 09/01/14 from 1000 to 1900 hours for Napa and Solano County; center will be open for two weeks.
- Local Assistance Center (LAC): County and City of Napa: LAC opened on 09/08/14 at 301 1st Street, Napa (corner of 1st Street and Silverado Trail). The LAC is open until further notice.

SITUATION SUMMARY

NORTHERN CALIFORNIA FIRES

Happy Camp Complex, Vegetation Fire, Siskiyou County

Happy Camp District, Klamath National Forest

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 as of [09/13/14 at 1728 hours](#):

FRA

- 110,472 acres, [55%](#) contained
- Type 1 Team in command
- Expected Containment: 09/20/14
- Threatened Structures: 91 Single Residences, 1 Multiple Residence, 1 Mixed Commercial/Residential, 3 Nonresidential Commercial Properties, 42 Other Minor Structures
- Continue aggressive action on all spot fires across Scott River Road and Scott River from Swanson Gulch and McGuffy Creek. Direct attack will be utilized whenever possible. Structure defense in that area and Mill Creek is in place. Mop-up 100% around structures.
- [See Fire Activity Section for detailed information.](#)

July Complex, Siskiyou County

4 miles southeast of Sawyers Bar

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 as of [09/13/14 at 1738 hours](#):

FRA

- 47,470 acres, 78% contained
- Type 2 Team in command
- Destroyed Structures: 2 Other Minor Structures
- Patrol and mop up inside the line
- [See Fire Activity Section for detailed information.](#)

Gulch Vegetation Fire, Shasta County

Backbone Ridge, Jones Valley, 15 miles NE of Redding

Per CAL FIRE, Cal OES Duty Officers and ICS-209 as of [09/13/14 at 1717 hours](#):

SRA

- 1,300 acres, [85%](#) contained
- Type 3 IC in command
- Threatened Structures: None
- Destroyed Structures: 12 Other Minor Structures
- Continue building and improving direct line. Continue structure defense in the fire area
- FMAG applied for and placed on hold
- 26 Local Government engines and 7 water tenders assigned
- Two (2) Cal OES Fire Assistant Chiefs assigned
- [See Fire Activity Section for detailed information.](#)

SITUATION SUMMARY

NORTHERN CALIFORNIA FIRES

Bald 3, Vegetation Fire, Humboldt County

Hoopa, Hoopa Valley Reservation

Per CAL FIRE and ICS-209 as of [09/13/14 at 1806 hours](#):

FRA / HIA

- [367](#) acres, [20%](#) contained
- Moderate rate of spread with heavy spotting
- [Threatened Structures: 7 Singles Residences, 3 Nonresidential Commercial Property](#)
- Continued commitment of CAL FIRE air resources

Black Incident, Vegetation Fire, Mendocino County

[Black Bart Trail, North of Lake Mendocino](#)

Per Cal Fire and Cal OES Duty Officers:

SRA

- [15](#) acres, [0%](#) contained
- Moderate rate of spread
- Structures threatened
- Structure loss reported
- Per Mendocino County Sheriff's Office, 150 homes were evacuated with notifications primarily done utilizing Reverse 911; shelter established at Eagle Peak Middle School
- One (1) Cal OES Assistant Fire Chief en route

[See Fire Activity Section for detailed information.](#)

Dog Bar Incident, Vegetation Fire, Nevada County

[Black Bart Trail, North of Lake Mendocino](#)

Per Cal Fire, Cal OES Duty Officers, and ICS-209 as of [09/13/14 at 1917 hours](#):

SRA

- [150](#) acres, [0%](#) contained
- Moderate rate of spread
- Threatened Structures: [750](#) Single Residences
- One (1) structure lost
- An FMAG request has been received and has been placed on hold.
- [200](#) homes evacuated as of [1907](#) hours; shelter established at [Bear River High School](#)
- Per CUEA, PG&E is monitoring threat to power lines closely.

[See Fire Activity Section for detailed information.](#)

SITUATION SUMMARY

SOUTHERN CALIFORNIA FIRES

Silverado Vegetation Fire-Orange County

Silverado Canyon Road in the Cleveland National Forest, Orange County

Per CAL FIRE and Cal OES Duty Officers and ICS-209 as of [09/13/14 at 1715 hours](#):

FRA

- 1,500 acres and 10% containment.
- Threatened Structures: [250 Singles Residences](#)
- Mandatory Evacuations from 30331 Silverado Canyon east to the end of the road (fire gate), approx. 30 residences
- Power lines are threatened, Per CUEA there is no threat to the power grid.
- Unified Command between the Cleveland National Forest and the Orange County Fire Authority..
- [See Fire Activity Section for detailed information.](#)

Meadow Vegetation Fire – Yosemite National Park, Mariposa County

Moraine Dome, East of Little Yosemite Valley, Yosemite National Park.

Per CAL FIRE and Cal OES Duty Officers as of [09/13/14 at 1805 hours](#):

FRA/YNP

- 4,960 acres, 50% contained
- Type 2 Team in command
- Threatened Structures: 3 Mixed Commercial/ Residential
- Continue to construct and improve direct fire line where possible.
- [See Fire Activity Section for detailed information.](#)

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

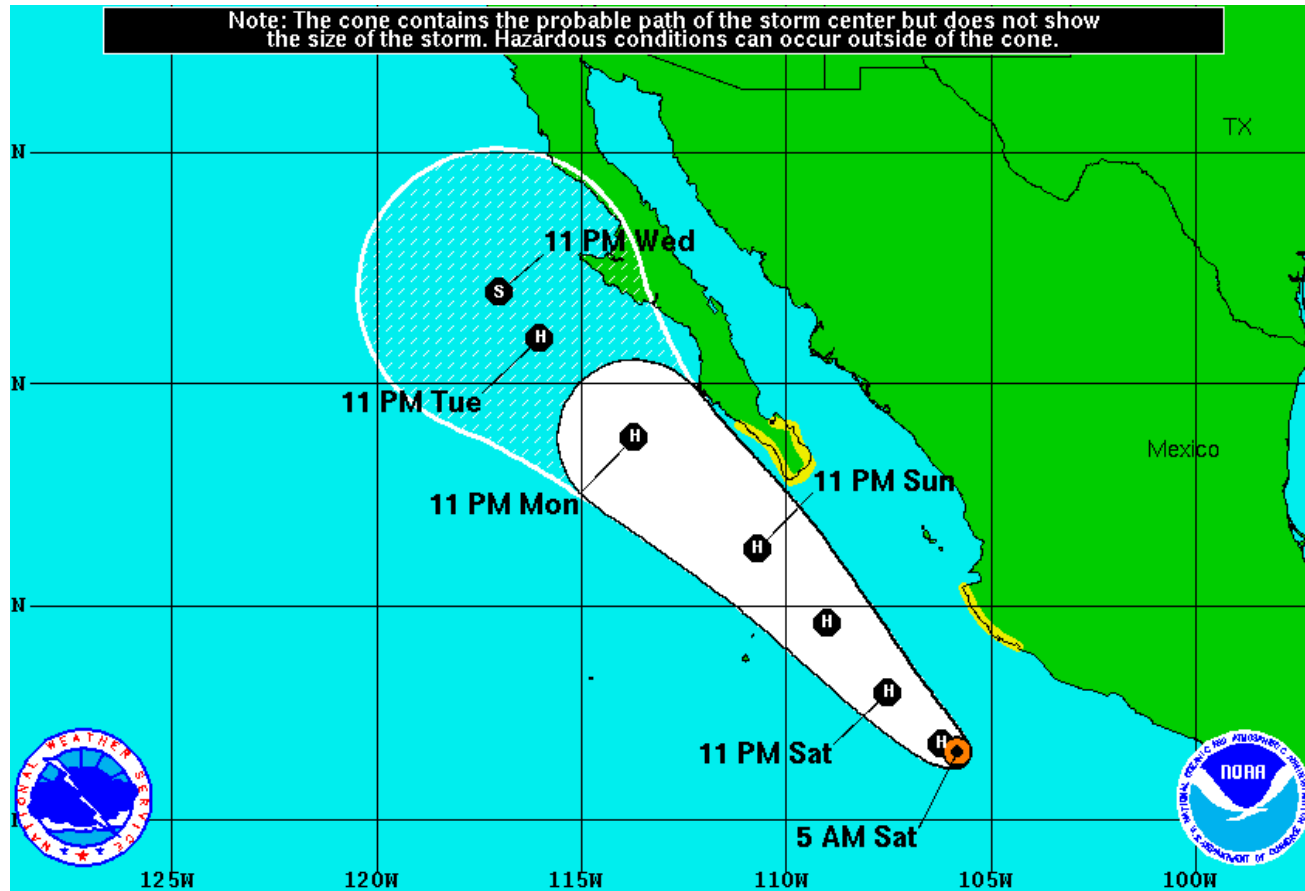

ACTIVE WEATHER WARNINGS, WATCHES and ADVISORIES:

- http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

SITUATION SUMMARY

Hurricane Odile, Eastern Pacific Ocean

Odile is a hurricane that is currently off the coast of Southwestern Mexico. Hurricane Odile has been upgraded from a Tropical Storm due to sustained wind speeds near 75mph extending 25 miles from the center of the storm. Tropical Storm force winds extend up to 205 miles out from the center. The new National Hurricane Center track forecast is an update of the previous one through the next 48 hours, and is a little to the right of the previous track. However, the center of Odile is expected to remain well offshore of the coast of southwestern Mexico through Saturday. National Weather Service, San Diego reports that Odile could bring a significant influx of moisture. This would bring the possibility of showers and thunderstorms with locally heavy rainfall.

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

WEATHER

WEATHER SYNOPSIS BY REGION:

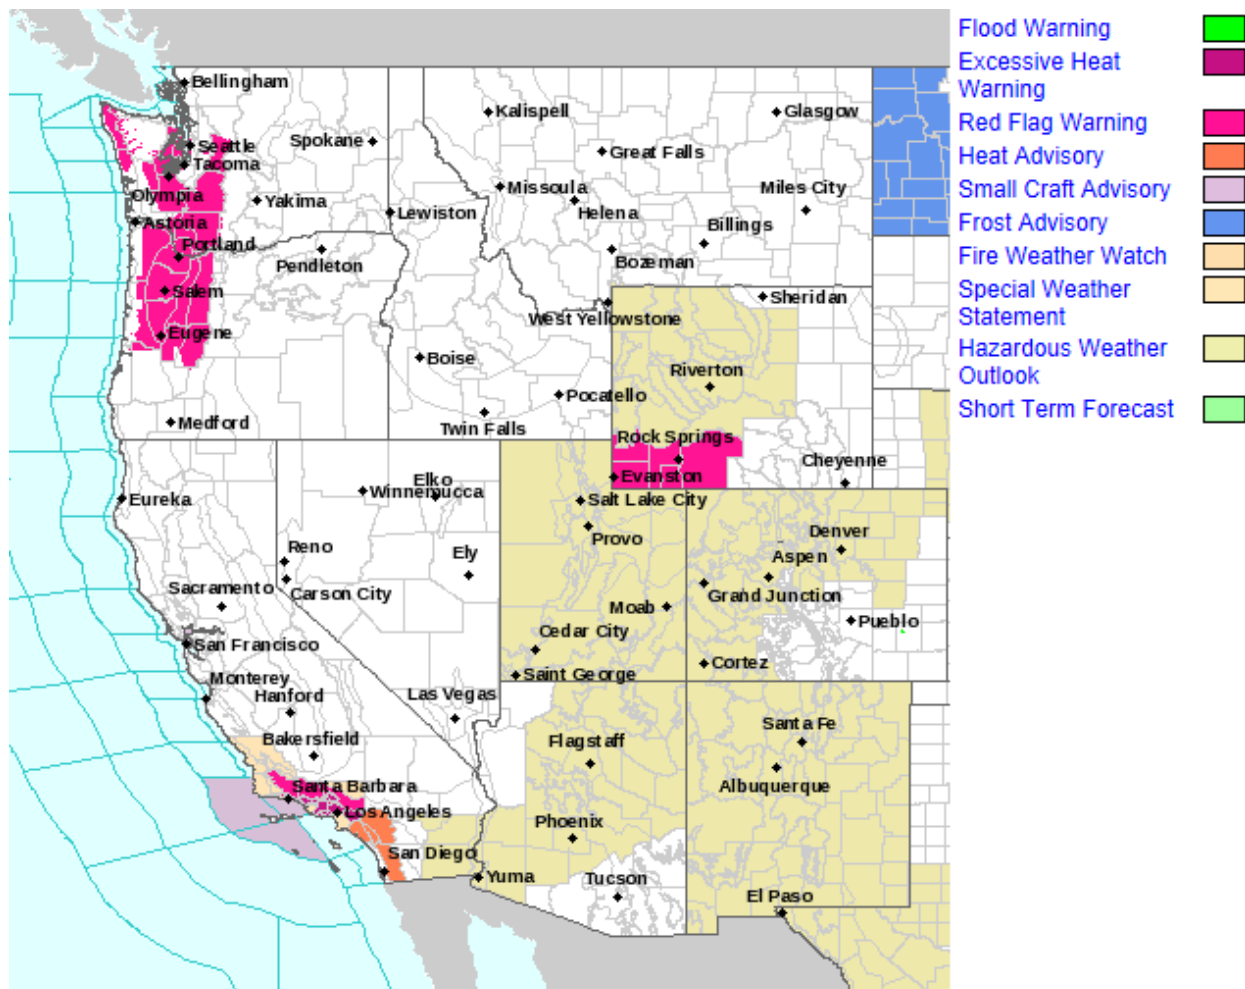

NORTHERN CALIFORNIA

Dry, unseasonably warm weather will continue today and Sunday under the persisting high pressure over the region. A little cooling is likely Sunday, however, as the ridge begins to move east and a low pressure trough moves into place off shore. Afternoon low relative humidity's today will again be in a 7-15% range in many inland areas, and poor to moderate overnight relative humidity recovery can be expected again tonight. Some gusty westerly winds may also develop this afternoon over the higher terrain, but nothing too strong. Monday the low pressure trough will swing northward into the Pacific Northwest with some moderately strong south to southwest winds developing (7-15 mph, gusts to around 35 mph). Although cooler, more humid conditions are expected in many areas, it will still be quite dry for most. Confidence is low, but there may be some chance of some afternoon showers over the Northeast California mountains Monday. All-in-all, fire potential conditions are expected to remain just below any critical levels. An overall cooling trend will be in place next week as another off shore low arrives off the coast mid-week and may move ashore Thursday and inland Friday. This system currently appears to have a better chance of dropping some precipitation over the mountains in particular, but all that is very uncertain at this time. Some of the variables that will affect the pattern next week include whether some moisture from the decay of Hurricane Odile makes it into Northern Operations. The marine layer will be somewhat shallow for today into Sunday then deepen again early next week.

SOUTHERN CALIFORNIA

A strong high pressure over the Desert Southwest will keep temperatures 10 to 15 degrees above normal through Tuesday, with 80s to low 90s in the mountains and mid-90s to 105 in the valleys. Minimum relative humidity will continue to be mainly between 8% and 18% through Tuesday. Isolated afternoon showers and thunderstorms will be possible near the Colorado River through Monday and then spread westward to the mountains and deserts of Southern California east of the Cajon Pass Tuesday. Shower and thunderstorm activity will increase and spread to much of Southern California and the Sierra Wednesday and Thursday as moisture from the remnants of what is now Hurricane Odile moves over the region. It will dry out starting Friday, but isolated showers and thunderstorms will still be possible across the mountains and deserts. A big cooling trend will occur Wednesday through the end of next week as a Pacific trough drops down the West Coast. Strong and erratic winds will occur in and near any thunderstorms; otherwise winds will be light through the end of next week.

FIRE ACTIVITY

Black Incident, Vegetation Fire, Mendocino County

Black Bart Trail, North of Lake Mendocino

Per Cal Fire and Cal OES Duty Officers:

SRA

- 15 acres, 0% contained
- Moderate rate of spread
- Structures threatened
- Structure loss reported

Emergency Management

Evacuations

- Per Mendocino County Sheriff's Office, 150 homes were evacuated with notifications primarily done utilizing Reverse 911.

Shelters

- A shelter has been established at Eagle Peak Middle School, located at 8601 West Road, Redwood Valley.

Utilities/Critical Infrastructure

- Per the California Utilities Emergency Association (CUEA), power is presently safe, PG &E is monitoring.

Activations

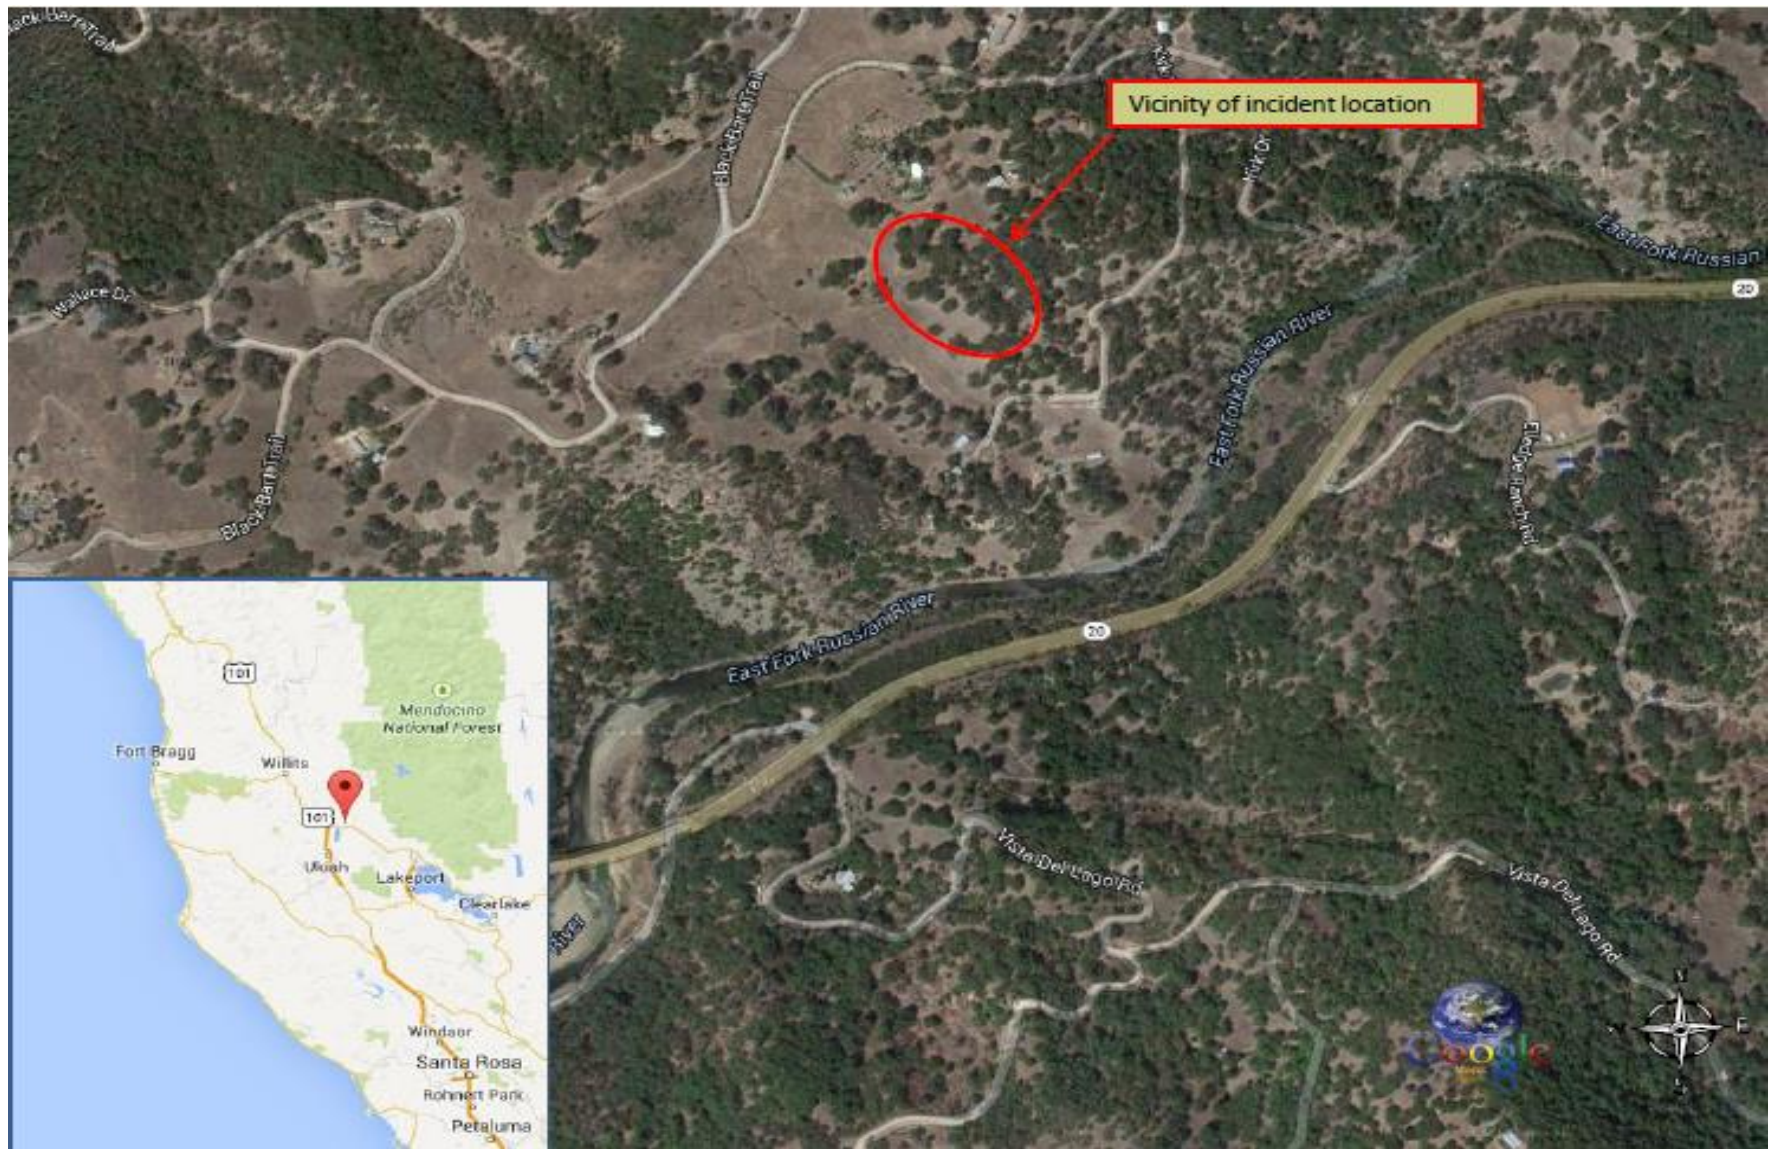

- Mendocino County EOC has activated at Level 1.

Cal OES Deployments

- A Cal OES Assistant Fire Chief is en route to the incident

There are currently no requests for assistance or unmet needs.

Black Incident, Vegetation Fire, Mendocino County

Cal OES
GOVERNOR'S OFFICE

FIRE ACTIVITY

Dog Bar Incident, Vegetation Fire, Nevada County

Dog Bar Road, southeast of Grass Valley, Nevada County.

Per Cal Fire, Cal OES Duty Officers, and ICS-209 as of 09/13/14 at 1917 hours:

SRA

- 150 acres, 0% contained
- Moderate rate of spread
- Structure Threat: 750 Single Residences Threatened
- One (1) structure lost
- Three (3) Type-1 Strike Team Engines are being ordered for structure protection
- An FMAG request has been received and has been placed on hold.
- Total Personnel - 477

Emergency Management

Evacuations

- 200 homes evacuated as of 1907 hours with Mandatory evacuations in progress at the following areas: Cougar Court, Bobcat Court, Jaguar Court, Tiger Trail Road, Panther Court, Ocelet Drive, Blackhawk Court, Black Oak Lane, Owl Hill Court, Venous Court, Buck Ridge Court, Wolf Creek Road. Per Nevada County Sheriff's Office, active evacuations are being conducted via Reverse 911 and door-to-door notification.

Shelters

- An evacuation center has been established at Bear River High School, located at 11130 Magnolia Road, Grass Valley.

Road Closures

- Cougar Court, Bobcat Court, Jaguar Court, Tiger Trail Road, Panther Court, Ocelet Drive, Blackhawk Court, Black Oak Lane, Owl Hill Court, Venous Court, Buck Ridge Court, Wolf Creek Road

Utilities/Critical Infrastructure

- PG&E is monitoring threat to power lines closely.

Mutual Aid Resources

- Nevada County Sheriff received immediate mutual aid resources from CHP (3 units assisting in road closures and traffic control) and Placer County Sheriff's Department (10 units). At 1915 hours, per Nevada County Sheriff all Law enforcement mutual aid resources released

Activations

- Nevada County EOC is activated.

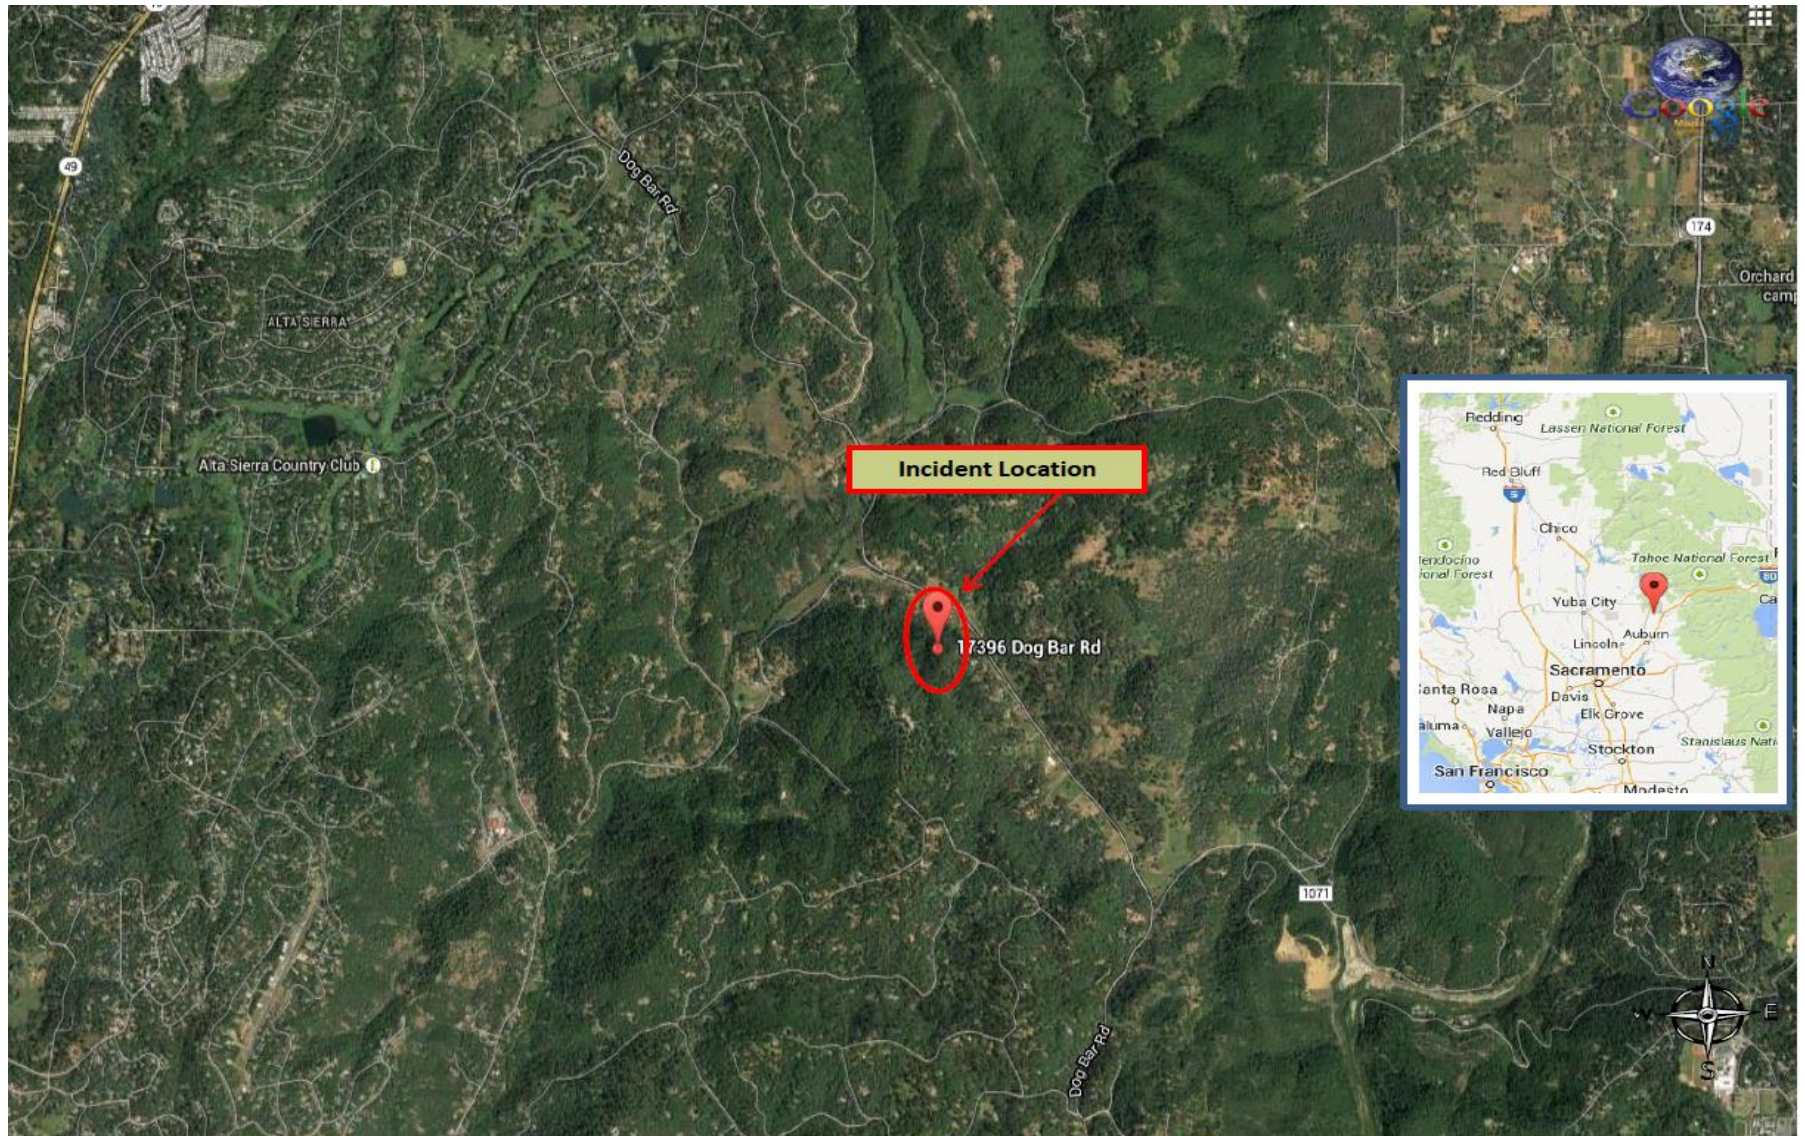

Cal OES Deployments

- A Cal OES Assistant Fire Chief is en route to the incident
- A Cal OES Inland Region Representative is present in the Nevada County EOC.
- A Cal OES Law Enforcement Assistant Chief is present in the Nevada County EOC.

There are currently no requests for assistance or unmet needs.

- Continue aggressive action on all spot fires across Scott River Road and Scott River from Swanson Gulch and McGuffy Creek. Direct attack will be utilized whenever possible. Structure defense in that area and Mill Creek is in place. Mop-up 100% around structures.
- Total Personnel – [1,864](#)

Emergency Management

Evacuations

- Mandatory Evacuations:
 - Scott River Road from Bridge Flat to the intersection of Hwy. 96.
- Evacuation Advisories:
 - All areas of Mill Creek Road five (5) miles east of Scott River Road.
 - Highway 96 from the Klamath River Bridge ½ mile west of Grider Road/Walker Creek Road to Scott River Road . This includes both sides of Hwy 96 and the community of Hamburg.
- Currently, there has been no request for LE Mutual Aid; Siskiyou Sheriff's Office, CHP, and US Forest Service LEO personnel, are assigned to Evacuation Advisories/Orders, security and road closure

Power/Electrical/Utility Problems:

- Flumes providing water to the community of Hamburg (Siskiyou OA) - approximate population 80 - were reported burned by the Happy Camp Complex Fire. Immediate water needs are being met through bottled water donations. Temporary repairs have been made and water is back in the system.

FIRE ACTIVITY

Happy Camp Complex, Vegetation Fire, Siskiyou County (Continued)

Shelters

- An evacuation center has been established at Winema Hall at the Siskiyou Golden Fairgrounds, 1712 Fairline Road, Yreka. Population: 4
- An evacuation center has been established at the Karuk Tribe's Senior Nutrition Center located at 64101 Second Avenue, Happy Camp.
- Both large and small animals will be accommodated at the fairgrounds.

Health and Medical

- A Clean Air Respite Center is located at the Family Resource Center at 11920 Main St., Ft. Jones. It will be open during the week from 0900 – 1700 hours. A clean air respite Center has been activated at the Karuk Tribe's Senior Nutrition Center located at 64101 Second avenue in Happy Camp, 0800 - 1700.
- A Health Emergency has been declared as a result of this Complex.

Road Closures

- China Grade Road is open to residents only.

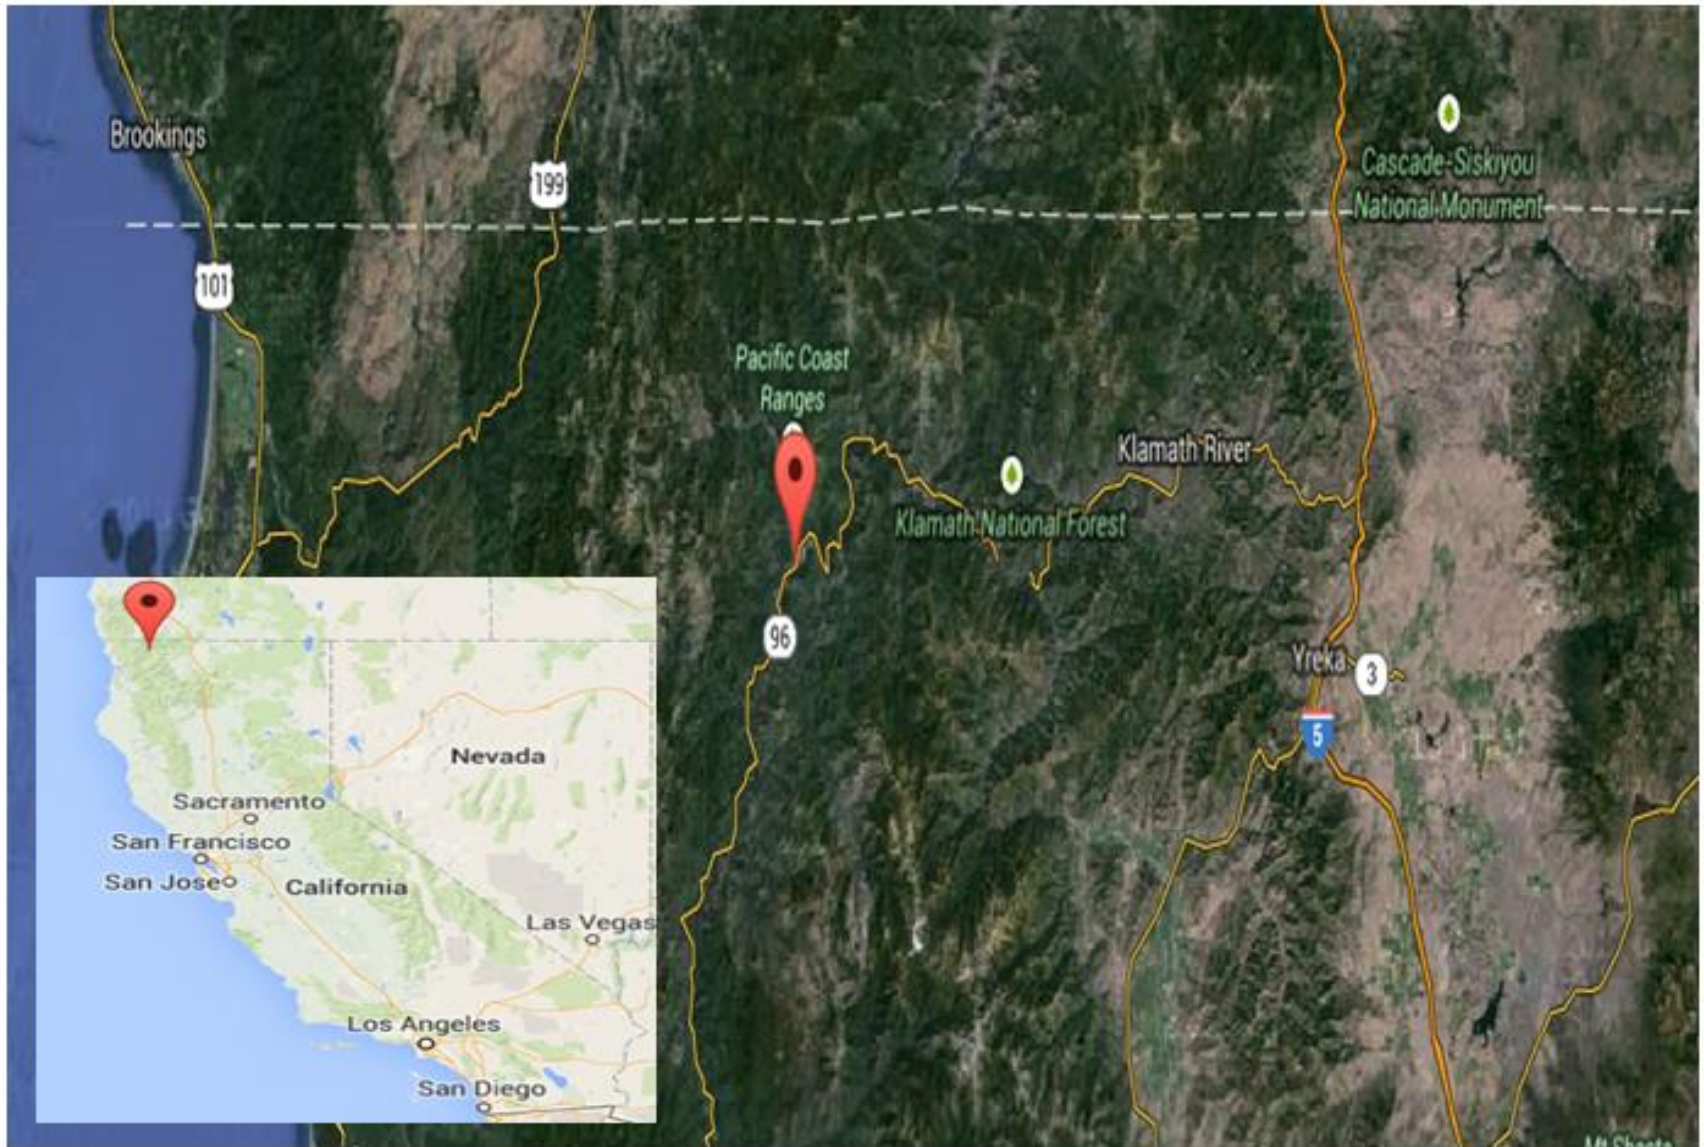

Activations

- Siskiyou County EOC activated Level 1

Mission Tasking

- **2014-IREOC-4568**
- Eight units are in continuing service.
- Due to commencement of school this week at the Klamath site, Unit #29 was relocated on 8/25 to a new site (Seiad Valley) 15 miles west.
- PM levels in the good to hazardous range ($>2,400$ mg/m³) were recorded intermittently at Happy Camp and Sawyers Bar.
- Other locations have predominantly good to moderate air quality with intermittent unhealthy air quality.

- A Cal OES Assistant Fire Chief is assigned as AREP at the Incident Command Post (ICP).

FIRE ACTIVITY

Silverado Vegetation Fire-Orange County (Continued)

Air Quality

At 1045 hours, AQMD issued a smoke advisory for Orange County and advised the air quality across the county was reported as UNHEALTHFUL.

Utilities

Electricity

- As of 1500 hours, 71 customers remain without power (down from 106 this morning).
- SCE has stated the 500kV line continues to be threatened by the fire; per CUEA, there is no threat to the power grid.
- The 12kV line servicing Silverado residents is still down, power poles have been burnt, and SCE crews are conducting assessments in the fire burn area as allowed due to safety of their personnel and the fire still burning in the area. Unknown ETA until power can be fully restored.

Telecommunications

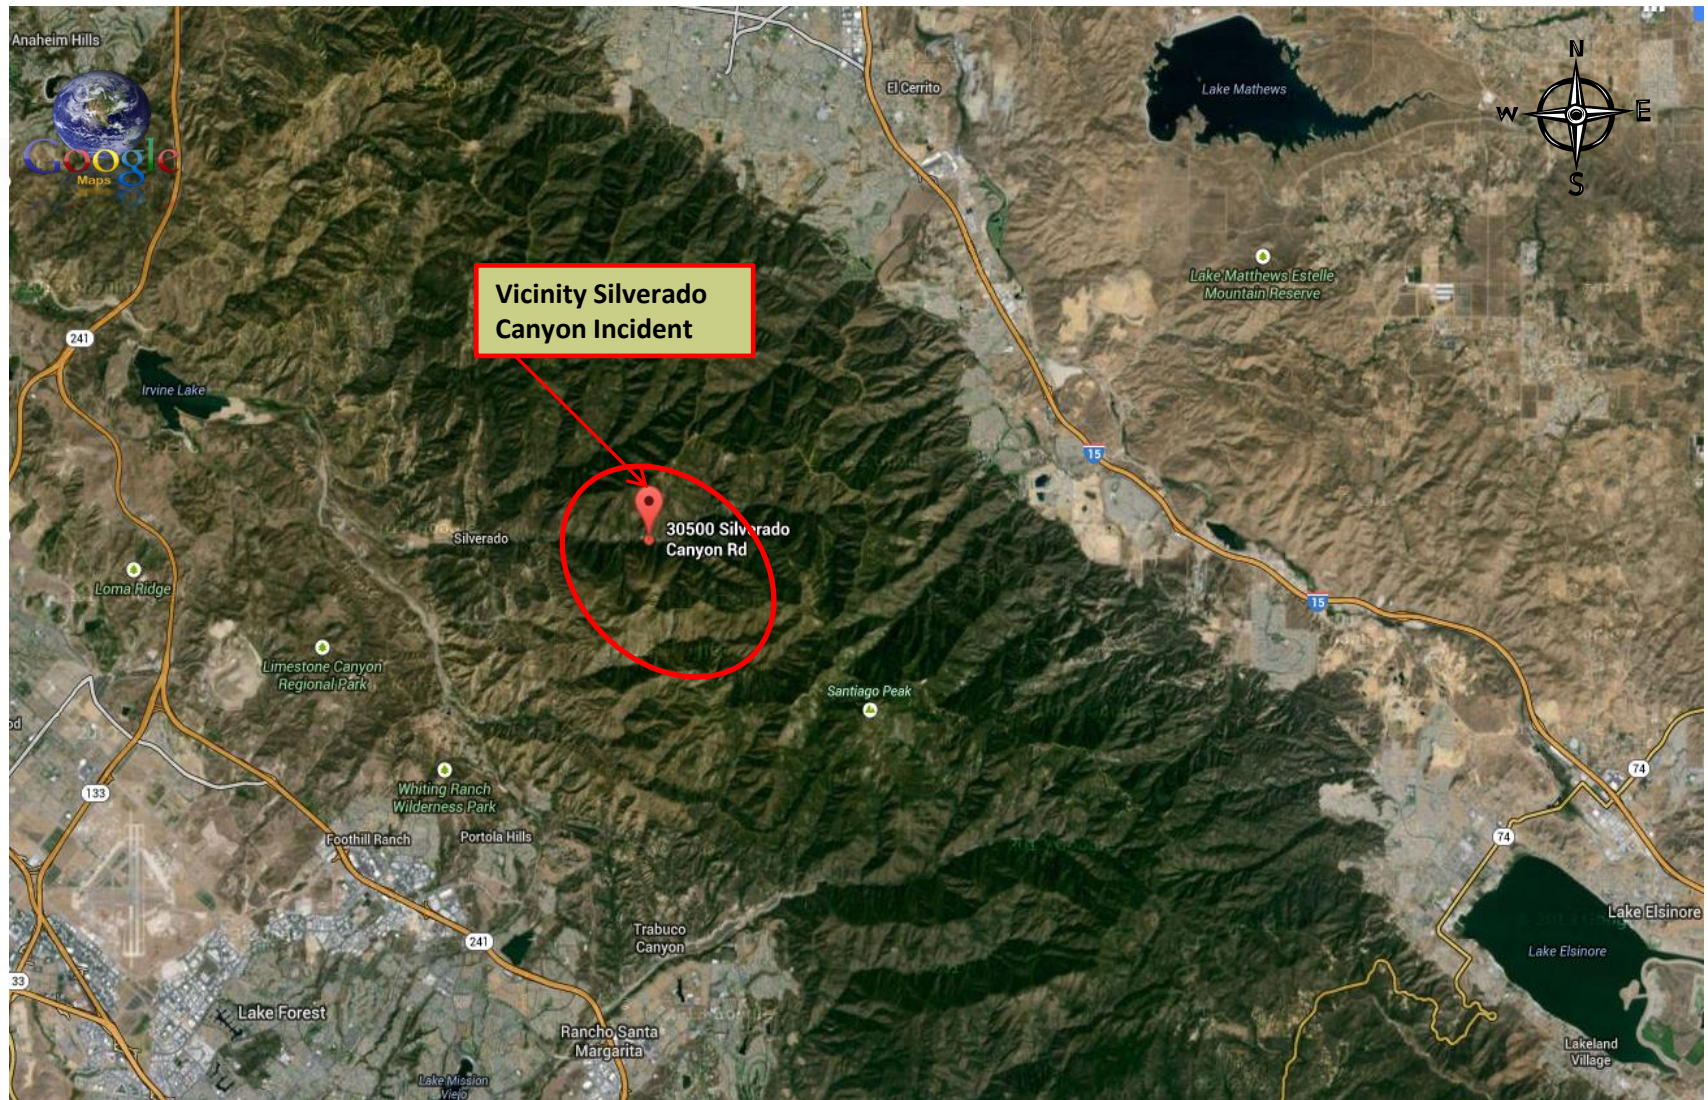

- Cox Communications has one node offline in Silverado canyon. This is believed to impact most customers within the canyon for video, phone, and data service. Repair crews are on standby pending being allowed into the area.

Water

- Power has been restored to all facilities in Silverado Canyon with the exception of Read Pump Station, Read Reservoir, and Chapman Reservoir. Outages are due to damaged and/or downed power poles. Restoration estimate from Edison for power to the reservoirs is 24-36 hours.
- The Read Pump Station and Reservoir 100 kW generator holds 250 gallons of fuel and is currently running. Additional fuel for the generator is ready when needed. Irvine Ranch Water District staff will continue to check the generator at 1000 and 2000 hours until power is restored.
- Communications to Chapman Reservoir are still out. IRWD is working on installing a set of batteries to restore power to the PLC. As of now, the pumps at Read Pump Station are running in manual with the Chapman Reservoir overflowing at approximately 50 GPM until communications are returned.
- Reservoirs continue to stay at high levels in all the canyons.
- Irvine Ranch Water District is in contact with the command post, WEROC, and the EOC. They are handling all needs and do not require assistance at this time.

Cal OES Duty Officers continue to monitor. There are currently no requests for assistance or unmet needs.

CAL OES MISSIONS

Ongoing Cal OES Missions

2014-LAW-4996 **REOPENED** This mission, a SAR for a missing hiker, was originally opened on 8/16/14. After searching daily to no avail, the mission was closed on 8/25/14. On 9/10/14, Monterey SO requested to reopen the mission for a single operational period on Saturday, 9/13/14, to search for the missing person's remains. The request is for ten K9 teams and a helicopter to insert them. The Cal OES Law Branch K9 coordinator is working to secure the K9 teams. Monterey SO is requesting the helicopter to expedite deployment of teams in the field to maximize the available search time. The helicopter will be used only to insert teams and not for the extraction; the K9 teams will search all day Saturday, camp overnight and hike out on Sunday. Santa Clara SO has tentatively agreed to provide their helicopter, weather permitting. **UPDATE: 9/11/14, 2141 hrs., Cal OES LEB K9 Coordinator has secured 6 HRD teams for Saturday's search. Mission Re-opened/Ongoing**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
